

An easy way to settle the Hospital question is at hand if the Taxing District government officials will only avail themselves of it. It is to ask the Legislature in January to grant the District the Hospital grounds for a public square, with the understanding that Memphis purchase grounds and erect Hospital buildings somewhere else, say near the site of the Marine Hospital. In this way three good things could be accomplished—a nuisance would be abated, the city would be benefited by another square, and also be provided with a Hospital worthy of its people.

GEN. CATCHINGS, Democratic candidate for Congress in the Third Mississippi (Shoe-string) District, was in the city yesterday and received much attention from our leading merchants, who know how to value the services of a Congressman who, while he respects the constitution and believes in State rights, is not so sentimental a strict constructionist as to refuse national aid for such public work as will directly benefit the people he represents. To Gen. Catchings' energetic efforts we are in this part of the Mississippi Valley largely owe it that the appropriation bill passed at the last session of Congress contained anything like a reasonable provision for the continuance of the work necessary for the protection of this harbor and initiate the much-needed work of saving the banks along the Mississippi rim of the Yazoo basin. A friend to Memphis, we are directly interested in his election, for which our merchants engaged in the Yazoo bottom trade should contribute all they can.

To the Editors of the Appeal: In behalf of many citizens, I write to ask you to assist the question of having the city fathers take down the railing around Court Square. This would afford Rogers, his bear and his bell, and afford the people the front access to the only resting place in the city.

"Citizen" is wrong so far as Sgt. Rogers is concerned. He is encouraged to make a crossroad's manager of the people's "only resting place," and is, therefore, not to be blamed. And so, also, in regard to the ear-splitting bell, which he rings sometimes at 9 o'clock to warn unoffending citizens to leave the Square. He commits that nuisance by authority. Rogers is all right. It is his immediate employers who are wrong and responsible. As to the taking down of the railing, a step was taken to that end by the Taxing District government, but only a step, and a lame one at that. It ought to be taken down and four or five dozen more seats be placed in the walks for the benefit of the people. There should never be lock or key on the Square, which at night is so brilliantly lighted by electric lights as to bring every inch of it into the plain view of every pedestrian.

THE President, a telegram elsewhere published tells us, has got his back up, and intends to remove three Federal office holders, one each in Indianapolis, New Orleans and somewhere in Wisconsin, who are reported to have taken a leading part at political conventions and in party management in defiance of the provisions of the civil service law. In this Mr. Cleveland is right, and if he shall remove the recalcitrant office holders he will be applauded and indorsed by the vast majority of the American people. The whole tendency of what is called party management is to foster men into office who are willing to be the tools of the managers and thus perpetuate a vicious system, by which the people are often defeated of their purpose in the election of worthy and well qualified men. No man of real and positive ability and possessed of becoming pride—no man with the independence that springs from absolute knowledge—would willingly owe his advancement to any such arbitrary and usurping power, and every such man would gladly see such combinations broken up and the people freed from the involuntary servitude to which they subject them. The punishment of Federal officials who take part in politics as managers is a first step to that end, and it cannot be too soon taken.

The next meeting of the National Prison Association will be held at Atlanta on the 6th of November, and will continue until the 12th of that month. Papers on prison hygiene, diet and moral instruction will be read by eminent specialists on the occasion, and P. D. Lewis, of Chattanooga, will read a timely paper on "The Prison System of the Southern States—Its Evils and Its Needs." Another important paper will be "The Prisoner," by Hamilton W. Mable, editor of the New York Christian Union. On reformatory day addresses will be delivered on "The Incurable," "Kindness as a Factor in Reformation," and "Prison Labor." "The Discharged Prisoner" and "The Organization of Prison Associations in States" will be the topics for the 11th, and the 12th will be devoted to "Prison and Police Matrons" and "The Organization of Prison Associations in States." If it were possible to have the members of the next Legislature of this State present at the deliberations of this humane association they might learn that men who become penitentiary convicts are not thereby turned into brute beasts, and that, criminals though they be, they have claims upon society for at least humane and just treatment. With such a lesson learned, Tennessee might hope to have the reproach removed from her of the infamous and accused system of leasing convict labor—making slaves of human beings.

## THE TRAVELING TAYLORS

AT DYERSBURG AND UNION CITY CAPTURE THE PEOPLE,

As They Do Wherever They Speak—The Congressional Canvass in Arkansas.

(SPECIAL TO THE APPEAL.)

UNION CITY, TENN., October 8.—There was the largest crowd ever seen here today, estimated at 12,000, overflowing with enthusiasm and party order. Alf's procession to the fair ground, where the speaking occurred, was estimated at 2,000 and Bob's over 600. Both had banners with suggestive mottoes, two with fine line size pictures of Bob.

G. W. Wiestrad, of Dresden, introduced Alf as their standard bearer. Alf opened in his usual style and he made a better speech than yesterday, though much in the same line, and it was well received by his partisan friends. He devoted more time to tariff and less to education than usual, and on closing Miss Minnie Sinclair presented him with flowers. Then followed a song composed by Mrs. Dr. Warfield, entitled, "Taylor's Coming," sung by sixteen beautiful young ladies from the sixteen districts of Union County.

The Hon. R. Pierce introduced the Mountain Boy in splendid style. Bob said he could not express his gratitude at his magnificent reception and would always keep it green in his memory. He then launched out and made one of his abstruse speeches, entering all eyes and minds on him and holding them spellbound throughout his entire time, though he was physically unwell. The vast audience was drawn closer, and with riveted attention they hung on every word, cheering and applauding almost continually.

As he closed four lovely young ladies presented him with a fiddle made of flowers, exquisitely executed. The people seemed as anxious to hear him at the close as at his beginning, and will be back again as the highest day of Bob has ever had.

The Taylor Brothers at Dyersburg

(SPECIAL TO THE APPEAL.)

DYERSBURG, TENN., October 8.—The Taylor brothers addressed the largest crowd of voters yesterday that ever assembled in Dyersburg. The partisan friends and admirers of the two parties were each well pleased with their candidly and each claims the victory over the other. Bob Taylor arraigned the Republican party and Alf did the same for the Democratic party. The Hon. Alf Taylor was quite house, and it was evident that he required considerable effort on his part to speak.

At the conclusion of his speech the Hon. Taylor presented a beautiful bouquet of white flowers by Miss Esie Stevens, one of Dyersburg's prettiest girls, and Col. Taylor's response in acceptance was an eloquent tribute to woman.

Miss Pierce presented the Hon. A. Taylor a pair of tiny anchors made of dahlias, and Col. Taylor responded in his happiest style.

The little children of Miss Trousdale's kindergarten school presented the two brothers with a double bouquet of red and white roses, and Col. Taylor paid a glowing tribute to the purity and innocence of childhood.

All in all, it was a pleasant day for everybody, and Democrats and Republicans went away mutually pleased with their representatives, and in respect shown each party and each candidate by the other is but another evidence of the increased liberality and tolerance of one party toward the other engendered by a joint canvass of two brothers.

Ex-Gov. Marks at Covington.

(SPECIAL TO THE APPEAL.)

COVINGTON, TENN., October 8.—In accordance with previous arrangements the citizens of Tipton county had an opportunity of listening for an hour and a half to a loud and eloquent speech, made yesterday afternoon by Ex-Gov. Marks, upon the issues of the day. Hastily running over the early history of the Republic, he proved that from Washington's Henry Clay all the Presidents, except John Adams, were in favor of maintaining the Constitution of the United States intact and unaltered as when it came from the press, and not willing under the insidious attacks of the Federalists. That document under which we all live and move, and have our being—that grand old safeguard of our liberties and a talisman to break up the horde of abolition carried the Republic into power. According to the doctrines of all the "old worthies" the Blair bill is unconstitutional, as Congress has no power to vote a dollar of the public money for any purpose not specified in the constitution. The attempt of the Federalists to found a university in the District of Columbia was a failure because the public welfare did not apply to it in that case; neither does it apply today to the provisions of the Blair bill. If it was legal and right it would be dangerous to accept it, because it would open the way for Federal interference with State rights, and the hatred of the Northern Republicans to a solid South would lead them to decree that all free schools should be on the same plan, and to black and white, and if the whites did not like the arrangement they could send their children to other schools and pay for them. [For one hour the cry of "Wolf! wolf!" made the courthouse ring.] And the sly and poisonous sting of the scorpion was secreted in every dollar of the seventy-one millions generously offered the South to help to dispel the gloom and darkness surrounding her at the present moment. It is strangely remarkable to observe how easy it is for some philosophers to be able to see the dangers that are merely visionary and remote, and yet shut their eyes to the breakers dashing against the bow of the ship sailing of rocks ahead. They are like the dogs of Rome—they are poor watch dogs—and it may be that the geese will have to cackle or the grand citadel of American liberty will be overthrown by the enemies of all constitutional law.

We have had Phelan, and we have had Bob and Alf, and we have had Marks, and tomorrow we are to have Phelan and Z. C. Taylor, and it may be some lesser lights, but they are all silent upon the only subject that interests a citizen before the people of Tennessee today, the question of prohibition, because, forsooth, they say that question must be kept out of politics. The question of teaching a child to read is a desirable within the sacred pale of politics, but a question that affects the bread and butter of thousands of honest workers in the State, confests property to the amount of \$5,000,000 without compensation, causes a deficiency in the State treasury of \$300,000, reduces the demand for corn in the market to the extent of 75,000 bushels, leaves 500,000 bushels of apples and peaches to rot on the ground because there is no use for them, reduces the value of property of every description, and finally reduces every man below the level of a serf and a slave, must not be brought into politics because it might in some mysterious manner disturb the balance of power and place the "outs in and the ins out." Both parties are afraid of it, and well they may be, for the first party that boldy avers its right to much up both parties and Federal constitutions will be snowed under so deep that they will never be resuscitated. All honest men should sleep from now on with one eye open.

Pointexter Dunn on Alf's Canvass.

(SPECIAL TO THE APPEAL.)

RECTOR, ARK., October 8.—The Hon. Pointexter Dunn, candidate for Congress from the First District, has just closed a very successful campaign in this country. Great enthusiasm prevailed among the Democrats. The reception given Col. Dunn and his treatment of the great issues of the day were such as to win the admiration and esteem of both Democrats and Republicans alike. Col. Dunn will return to Congress with the largest majority of any man ever sent from the First District. He has received one continuous ovation everywhere, and was greeted with applause and the approbations of an approving constituency for the work he has done during the past eight years in Congress. His speeches are evidence of his ability as a statesman.

The Congressional Fight in Arkansas.

(SPECIAL TO THE APPEAL.)

LITTLE ROCK, ARK., October 8.—Reports from the First, Third and Fourth Congressional Districts of this State received tonight say the fight is going on in each of them in accordance with the true Democratic doctrine. The Hon. Pointexter Dunn, of the First District, spoke at Corning, Clay county, today, and it is said the people of the county have given him a regular ovation since opening the campaign in that county. He will be returned to Congress by a unanimous vote of the district. Hon. Thos. C. McKee, of the Third District, addressed the multitude at Magnolia, Columbia county, today, and information from there brings only a repetition of Col. Dunn's reception in the First. The Rev. H. H. Wheeler, of the Second District, who was making the canvass with the district's Representative, but his presence on the rostrum only creates fear for the Democratic audience. United States Senator James H. Berry is assisting the Hon. C. R. Beckenridge in the Second District, and the Democratic political clans are making it so lively for Col. Lee that the Wheeler candidate refuses to enter the arena with them. The nonentity is still out on the hauntings in this district, but his pay will be only what he has to get for his army friends during the campaign. Congressman Rogers will carry the district by at least 10,000 majority. The Republicans of the Third District have called a Congressional Nominating Convention, to assemble at Texarkana, Monday, at which it is proposed to nominate a straight Republican to enter the field against Col. McKee, that party refusing to endorse the Rev. H. H. Wheeler, who is well known to our readers, is supporting Col. E. E. Holman, a planter living in Benton county, and it is thought he is the coming man for the nomination. Mitchell is himself a turncoat Democrat, and was elected Judge of his district at the last election in this State on the Republican ticket. He is a life long Republican, so it is merely a case of "brother indorsing brother for office."

YAZOO CITY, MISS.

Murder and Suicide in a House of Ill Fame.

(SPECIAL TO THE APPEAL.)

YAZOO CITY, MISS., October 8.—At 6 o'clock yesterday evening Charles McDonald entered the house of ill fame of Nellie Lawrence (white), in the west part of the town. A few minutes after three pistol shots were heard, when it was found that McDonald had shot Nellie twice, once in the neck and just below the left nipple, then put the pistol to his head and shot himself through the right temple, crying in his agony, "Nellie, die this morning at 4 o'clock. McDonald's remains will be taken to Memphis tonight for interment.

[Mr. McDonald was the son of Maj. Charles McDonald, of Confederate cavalry fame, who was killed early during the civil war, and the stepson of Maj. James Barber, who served in Forrest's cavalry during the war. He was born in this city, where his family were well known and much esteemed.—EDS. APPEAL.]

PRESBYTERY OF ARKANSAS.

The Annual Session Opened at the Second Presbyterian Church.

(SPECIAL TO THE APPEAL.)

LITTLE ROCK, ARK., October 8.—The regular annual session of the Presbytery of Arkansas convened at 10 o'clock this morning in the Second Presbyterian Church, this city, a large delegation of the ministers of that denomination being in attendance. Today's proceedings were occupied with listening to an able eulogy on the life of the Rev. Thos. Rice Welch, lately deceased, who was one of the pioneers of Calvinism in Arkansas. The meeting will conclude its labors tomorrow.

Have you Tonglins in many cases of rheumatism with marked success; the most important one was that of a patient, age 51, who has been a sufferer from that disease for forty years. In one of his severe attacks I prescribed Tonglins, and upon the fifth day he was able to be out, and also to attend to his business. Have given Tonglins a full and impartial trial, and think it the best remedy I have ever found for rheumatism.

## A PLOT TO ASSASSINATE

THE EMPEROR FRANCIS JOSEPH, OF AUSTRIA,

Frustrated by the Police—The Plan of Home Rule for Ireland by the Tories.

(SPECIAL TO THE APPEAL.)

LONDON, October 9.—The Chronicle's correspondent at Paris says he has just ascertained from the details of a startling anarchist plot to destroy Vienna and to assassinate Emperor Francis Joseph. The conspirators, whose plans were frustrated by the authorities, had intended to carry out the plot on October 23. Various timorosos were to be set on fire throughout the city and during the confusion public buildings were to be blown up with dynamite. The police seized immense quantities of bombs and other explosives in different parts of the city, especially near the Imperial residence at Schonbrunn, and beneath the bridge leading to the palace, which the Emperor crosses daily. It was also intended to make an attempt upon the life of the Emperor at the same time. A large number of foreign and Austrian were arrested. The conspirators were charged with the consequence of the stringent and socialist laws now in the discovery of the plot did not leak out for several days.

Tory Home Rule for Ireland.

(SPECIAL TO THE APPEAL.)

LONDON, October 9.—The Daily News says that it is enabled to state that a committee of the Cabinet is preparing a bill to establish four national councils to represent the province of Ireland. The bill offers from Mr. Gladstone's bill chiefly in the omission of provisions for a legislative body at Dublin. With this exception the bill fully meets the aspirations of the Home Rulers in regard to transferring to local bodies the direction of Irish affairs, now dealt with at Westminster. The government has secured for this bill the hearty support of Lord Hartington and Mr. Chamberlain. Mr. Gladstone was not consulted in the matter.

The News expresses the belief that Mr. Chamberlain is the real author of the scheme, and that the Fanatics will reject the bill with contempt. Commenting editorially on the bill the News says: "The government are sanguine that they can carry the bill. It is possible that many Liberals will support the measure as a welcome installment. If the bill passes, all the opposition will be thrown overboard to Mr. Gladstone's bold initiative and to that alone."

The Cholera Record.

(SPECIAL TO THE APPEAL.)

VIENNA, October 8.—Five new cases of cholera and two deaths have been reported at Trieste. In Pruth three deaths and ten new cases and in Austria three new cases have been reported.

Met With a Cold Reception.

(SPECIAL TO THE APPEAL.)

SOFIA, October 8.—Gen. Kaulbars met with a cold reception at Sofia, meeting 1000 of the inhabitants declared against the intervention of Russia. Gen. Kaulbars notified the officers of the Bulgarian army stationed at Sofia by letter to meet him and hear a message from the Czar. The officers replied that he should address the Bulgarian Government.

Lord Churchill at Dresden.

(SPECIAL TO THE APPEAL.)

DRESDEN, October 8.—Lord Randolph Churchill arrived here yesterday.

LITTLE ROCK, ARK.

The Coal Hill Miners are Still on Strike.

(SPECIAL TO THE APPEAL.)

LITTLE ROCK, ARK., October 8.—Contrary to previous announcement, the free labor miners in the Olla Coal Company's mine at Coal Hill, Johnson county, this State, did not return to work yesterday, as was said they would in a dispatch from this city a day or two since. The men did go to work, but were soon called out and the strike declared on again. A meeting was held by them today at which the following resolutions were passed and a committee appointed to present them to the superintendent:

Coal Hill, Ark., October 8.

GENTLEMEN—You are hereby notified that at a meeting of miners the following resolutions were adopted.

We demand 10 cents for a winter price, six months, and 75 cents summer price, six months, or 80 cents the year round, and no more work until we hear from you.

H. J. HAMIL, G. D. BARNES, Committee.

The miners are not willing to settle by arbitration. New men are arriving every day, but are not permitted to work, however anxious they may be. It is thought here that the action on the part of the "free labor" of Coal Hill is only a ruse resorted to in order to again assault the convicts in the mines at that place. The principal coaling interests of the State are situated at Coal Hill, and there are several hundred convicts employed in the mines there.
